**IEC publishes article by Solaiemes directors about IMS trends.
8/May/07.**

Madrid. The IEC (International Engineering Consortium / www.iec.org) has included in the comprehensive report [Business Models and Drivers for Next-Generation IMS Services](#) (to be released in next July) the article "**IMS and Uplink-Oriented Services, a Powerful Combination to Create New Cases of Value-Added Use**" by Solaiemes directors Javier López and Juan Mateu. The comprehensive report is also including articles from top telecom suppliers and main IT consultancy firms.

The IEC (located in Chicago, IL, U.S.) was founded in 1944. sponsored by universities and engineering societies and became dedicated to continuing education for the U.S. electronics industry. IEC publishes periodically: handbooks, comprehensive reports, proceedings, research reports and annual reviews, considered reference to partnership between academia and industry.

Solaiemes thanks to IEC the fact of considering our envision of future of IMS/NGN based solutions and the relationship with converged networks and uplink/downlink balance consideration to create powerful social and/or revenue generator use cases.

About Solaiemes.

Solaiemes is a technology company focused on Mobility, creating value in two ways, creating more use cases for mobility, and increasing usability of mobile side. Solaiemes pioneers in SIP/IMS solutions and use of SVG technologies to enhance usability. Also, offering know-how as mobile consultants.
