

Solaiemes exhibited at CTIA Wireless 2009.

Madrid. 4/4/2009. Solaiemes exhibited in the CTIA Wireless event past 1-3rd, April, in Las Vegas (Nevada, US). Potential partners and clients visited Solaiemes booth, located at Spanish pavilion. We also take profit of this opportunity to visit other companies with possible synergies, to explore further opportunities creating high added value use cases combining our portfolios.

The feedback provided by visitors coming from US and LATAM countries is very useful and will impact our next feature set in our portfolio roadmap. Particularly, the coming trend SaaS for mobile services reinforces our strategy. This first exhibition in US result encourages us to participate in related events in the next future. For us the US market is key for Solaiemes growth.

About Solaiemes.

Solaiemes is a mobility-focused technology company; with a value proposition strongly focused on creating innovative, new use cases for mobility, and increasing usability on the mobile side. Solaiemes leads the way in monetizing and getting the most from current data networks and mid-tier handsets, generating value for MNOs, enterprises, service providers and Web 2.0 communities. With Solaiemes technology concepts as m-CRM (customer relationship management), m-ERP (Enterprise Resource Planning), and m-UGC (user generated content in WEB 2.0) finally become feasible.
