

## **Solaiemes selected as a 'Top Innovator' for the GSMA's Mobile Innovation Summit. 1/November/07.**

**Madrid.** Solaiemes has been selected as one of 50 'Top Innovators' for the GSMA's Mobile Innovation Summit to be held in Macau, Asia on November 12th. Solaiemes participated in the Asia Mobile Innovation Awards in the **carrier infrastructure** category, with its infrastructure servers bundle for enhancing the use cases of pre & IMS VideoShare. **"LiveServe VideoShare Suite 1.0"**. is a bundle of individual components field-proven in several commercial trial projects and used by clients with their own fully commercial solutions.

LiveServe VideoShare Suite 1.0 components allow Carriers, MVNO's, enterprises and IT companies to build up compelling mobile solutions based on IMS or pre-IMS VideoShare, using standardized native VideoShare capabilities in selected handsets and, in the near future, most of 3G handsets once VideoShare Carrier Branded services will be launched.

The bundle includes our ConverG (IMS VideoShare Application Server, proven interoperable with leader IMS vendor), LiveServe to build up mobile-to-server video share solutions and LS MediaServer to build up server-to-mobile videoshare use cases.

In our first year of live we are glad to find our efforts recognized by the industry, and see that a new range of IMS and SIP based mobile solutions will be one of the main trends in mobile market development.

Solaiemes will continue innovating the IMS based products portfolio and pushing forward their network based Usability product line to be unveiled next future.

We are happy to announce that **Solaiemes** will be attending the Mobile Innovation Summit (12-13/November) participating at pitching session and showcasing our technology in the Innovation Zone, Mobile Asia Congress in Macau (12-15/November).

### **About Mobile Innovation Programme.**

The Mobile Innovation Programme has been created by the GSMA in order to showcase and promote the best in mobile innovation. By giving early insight into breakthrough technologies, the Programme will ensure that innovation is broadly aligned with operators' business strategies and end user needs, leading to faster and wider adoption by operators and delivering value for all stakeholders.
